

Announcement

2nd Workshop on OpenCRG 2012

Location and Date:
14. March 2012
Airport Munich, Germany

www.opencrg.org/workshop2012.htm

OpenCRG has gained a significant role as road surface description. The open source project including its tool suite enjoys great popularity.

Building on the success of the first event in 2010, the second OpenCRG workshop will provide a platform for networking and information exchange among users and between users and developers of OpenCRG.

This year's organization is a co-operation by VIRES Simulationstechnologie GmbH, key developer of the OpenCRG tool-suite, and 3D Mapping Solutions GmbH, a service provider for highly detailed road surface scans. We would be happy to welcome all at the "Municon" conference center which is located at the Munich Airport.

OpenCRG developers, users and other interested parties are called to share and discuss their experiences and expectations concerning OpenCRG. The results of the workshop will directly influence the future development of OpenCRG.

The workshop will be organized as an open panel. Therefore, we would like to call for presentations by actual users about OpenCRG in 3rd party applications. (for details, see below). In addition an OpenCRG tutorial will take place. Suggestions are welcome.

On behalf of the organizers

Marius Dupuis

VIRES Simulationstechnologie GmbH

Dr.-Ing. Gunnar Gräfe

3D Mapping Solutions GmbH

2nd Workshop on OpenCRG – Location

- **Airport Munich – Perfect connection**

2nd Workshop on OpenCRG

▪ Call for Presentation

If you are an active user of OpenCRG – either natively or within a 3rd party application – please share your experience at the 2nd OpenCRG Workshop by means of a short user report.

Please provide us with the details listed below by 1st March 2012. The e-mail address is workshop2012@opencrg.org

The following information should be included:

- A meaningful title
- Contact information of the author and co-authors
- Categorization of the topic (e.g. Tyres, Visualization)

A session includes a short **presentation (up to 20 minutes)** followed by **5-10 minutes discussion**.
